**Professional Learning Communities often take up to three years to fully mature and produce consistent results in student learning. The next 2 questions seek to determine where you feel we are on the spectrum of PLC development. Please consider the STAIRS model and following quote, and choose a category below that best describes where your team/school was situated in relation to the definition at the beginning of the year?**

What's next? We will keep you informed as to where the collection of responses may be accessed, ideally by late May or Early June. It was asked that we have the results of this form sorted into a key-word searchable format, which requires working with IT to develop an appropriate platform or platforms. Themes will also be pulled from the data and shared district wide. Thank you.
