Professional Learning Communities often take up to three years to fully mature and produce consistent results in student learning. The next 2 questions seek to determine where you feel we are on the spectrum of PLC development. Please consider the STAIRS model and following quote, and choose a category below that best describes where your team/school was situated in relation to the definition at the beginning of the year?

"An effective professional learning community has the capacity to promote and sustain the learning of all professional and other staff in the school community with the collective purpose of enhancing pupil learning." (Creating and Sustaining Effective Professional Learning Communities, Louise Stoll et al, 2005, p 181)

starting the journey to become a professional learning community (have plans to achieve the steps)

Where do you feel your group fit on this continuum at the end of the year. At the end of the year our team was:

a developing professional learning community.

Where would you say your team is currently located on the Action Research wheel? (See Action Research model above:

INFORMATION ABOUT YOUR PLC INQUIRY

1. Planning: What is/was your Inquiry Question?

How to develop unified positive behavior support strategies to better support our students

2. To what student need are/were you responding?

Self regulation

3. ACTING: What actions/interventions/strategies did you or will you implement or explore?

Creating a supportive environment, feeling Wheel, social emotional strategies, individualized interventions.

3a. What resources, materials, links, tools, experts, or research did you use?

Please provide details so others may easily access those same resources in their similar inquiries.

An internet course from Western Washington University. Positive Behavior Support in Early Childhood Education

3b. Did you co-create any new tools, assessments, resources or materials?

We combined zones of regulation and the feeling wheel to create individualized wheels for our students to be able to self regulate themselves.

Variable	Response
i. If so, for what grade level or subject area are they best suited?	Elementary
ii. If they are accessible for other educators to use, where are they located?	They are not accessible.

4. OBSERVING: What are/were the results of your inquiry/implementation/project?

N/A

5. What types of information/observations/data did you monitor or collect to confirm your intervention is/was working?

N/A

6. How did your project improve student learning? If you are just starting, in what ways do you anticipate your project will improve student learning?

By teaching students to self regulate and be ready to learn

7. REFLECTING: What are/were some of the highlights of your PLC journey so far? What worked well?

Learning techniques that are useful in the classroom.

8. What are/were some of the challenges? (By sharing this information, we are better able to identify needed resources, guides or solutions)

Lack of time

9. What might be helpful to have/know/do next time in order to improve results or move forward?

More time accessible for EAs to meet and create together.

10. What are your next steps, moving forward? (i.e. Continue on same project, adapt or expand the project or start on a new focus area/project)

Unsure do to EAs not knowing placement for next year

Thank you for your time and for sharing your insights, resources and learning with your colleagues and the educational community.

What's next? We will keep you informed as to where the collection of responses may be accessed, ideally by late May or Early June. It was asked that we have the results of this form sorted into a key-word searchable format, which requires working with IT to develop an appropriate platform or platforms. Themes will also be pulled from the data and shared district wide. Thank you.
