

# Getting Started with Bluebots

1. Turn on the Blue-bot using the switch on the **bottom** of the robot. Here you can choose if you would like sound on or not.
2. Use the buttons on the top of the Blue-bot to program what it will do:

Press the buttons in the order that you would like the Blue-bot to move then press **Go** to make it perform your commands. Press **Clear** before you start a new program.

**Have fun!**
