

A lesson with the story The Red Bicycle

Big Ideas:

Exploring stories and other texts helps us understand ourselves and make connections to others and to the world.

Complex global problems require international cooperation to make difficult choices for the future.

Curricular competencies:

Thinking critically, creatively, and reflectively to explore ideas within, between, and beyond texts.

Responding to text in personal, creative, and critical ways.

Driving Questions: What are global issues? How are people all over the world making a positive difference in their communities? What can we learn from them? How can I make a positive difference in my community?

Learning Targets: I can investigate stories for global issues. I can explore the global issue within a text and respond in personal, creative, and critical ways.

Establishing a Need to Know:

Share the video clip “*The need for bicycles in Africa*” (1:00)

<https://www.youtube.com/watch?v=n0M0dJx1UhI>

Post-video clip partner Turn and Listen: What did you notice? What is the issue you are alerted to in this clip? What do you wonder?

Shared Read:

Before reading: Establish a purpose for listening/viewing: investigating the story for deeper themes using the *Feel, Imagine, Do* framework (share an anchor chart that will be used for co-constructing ideas after reading the story).

Activate background knowledge. This can be done by asking for predictions about the story based on the title and cover picture, and/or by offering a general statement about the book and asking if students have ever experienced the topic.

During Reading: Talk about the story as it unfolds. Invite students to make connections, to look carefully at the pictures, to visualize, ask questions, and make inferences.

A lesson with the story The Red Bicycle

Post-story partner Turn and Listen:

Using the *Feel, Imagine, Do* framework to prompt thinking and conversation, invite students to turn and listen with a partner.

Co-constructing ideas: Invite a whole group conversation and brainstorm using the following framework-

Feel - What is the issue? Why is this a problem? Who does this affect? What are your personal experiences with this topic?

Imagine - Who are the different people connected to this issue? Who are the people making a difference? What can we learn from other countries about this topic? (the struggles, the people, the ideas, the events that have helped with the issue).

Do - What happened? What actions were taken? What were the results of this person's actions? What could we do that would call attention to this issue both in our school; in our community? (thinking globally, acting locally).

**make time for the books within this kit to be shared among students in an informal way. For example, books from this kit and from those gathered at your school library could be shared in a casual buddy reading/info circles format using the following framework:*
